-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Detailed Action
Election and Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1, drawn to a combination with a truck with a cargo compartment, classified in Class 296, Subclass 64.
- II. Claims 2, drawn to a combination with a truck with a cargo compartment, classified in Class 296, Subclass 70.
- III. Claims 3, drawn to a combination with a truck with a cargo compartment, classified in Class 296, Subclass 65.16.
- IV. Claims 4, drawn to a combination with a truck with a cargo compartment, classified in Class 296, Subclass 37.6.
- V. Claims 5, drawn to a combination with a truck with a cargo compartment, classified in Class 296, Subclass 64.
- VI. Claims 6, drawn to a combination with a truck with a cargo compartment, classified in Class 296, Subclass 65.06.

VII. Claims 7, drawn to a combination with a truck with a cargo compartment, classified in Class 296, Subclass 37.6.

VIII. Claims 8, drawn to a combination with a truck with a cargo compartment, classified in Class 296, Subclass 65.16.

IX. Claims 9, drawn to a combination with a truck with a cargo compartment, classified in Class 296, Subclass 37.6.

2. The inventions are distinct each from the other because of the following reasons: Inventions IX, VIII, VII, VI, V, IV, III, II and I are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination I as claimed does not require the particulars of a means for securing said seat structure to said front wall of subcombination II, one seat structure for at least two people of subcombination III, a one trunk of subcombination IV, a two or more securing locations of subcombination V, means to releasably lock the seat structure of subcombination VI, means to turn of

subcombination VII, one trunk with at least two separate lids of subcombination VIII, and means for securing said apparatus to said opposite side walls of subcombination IX. The subcombination has a utility in other combinations such as a sun visor, a van, a car, vehicle floor, a trunk, a wiper, a tractor, and a tonneau cover respectively.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. This application, as best understood, contains claims directed to the following patentably distinct species of the claimed invention:

Species A - directed towards Fig. 1-4,

Species B - directed towards Fig. 5

Species C - directed towards Fig. 6-7,

Species D - directed towards Fig. 8

Species E - directed towards Fig. 9-14

Species F - directed towards Fig. 15

Species G - directed towards Fig. 16-17

Species H - directed towards Fig. 18

Species I - directed towards Fig. 19

Species J - directed towards Fig. 20.

5. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, there appears to be no claim, which is generic to all species.

6. Applicant is advised that a response to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

7. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form

or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

8. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the Examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

9. A telephone call was made for the Attorney/Agent responsible for this application to request an oral election to the above restriction requirement, but did not result in an election being made.

10. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

11. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

12. Any inquiry concerning this communication or earlier communications should be directed to Primary Examiner Kiran B. Patel whose telephone number is 703-305-0254. The examiner can normally be reached on M-F from 8:00 to 5:00. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.
